## Short marketing circuit:

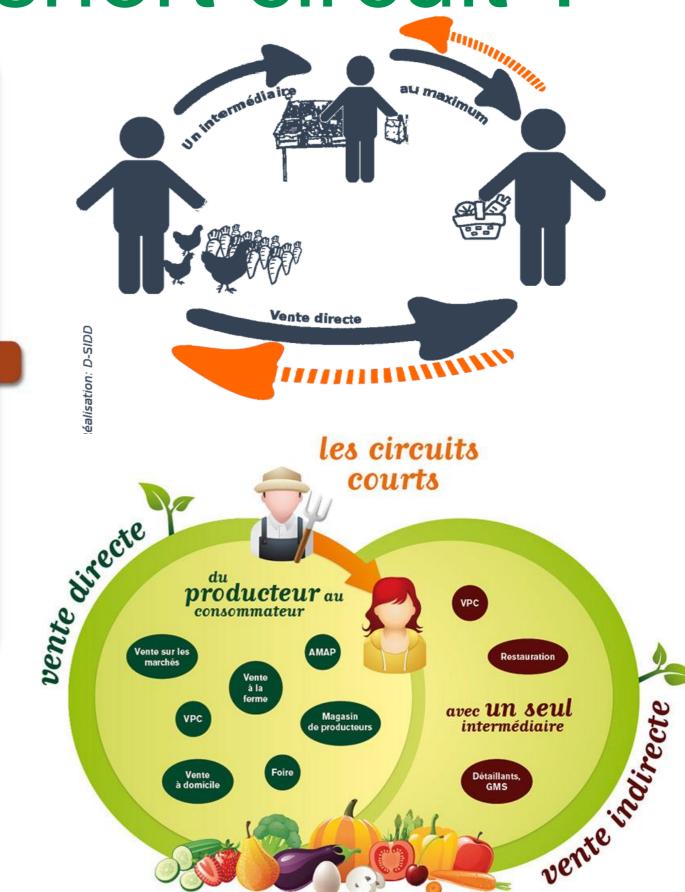

another way to consume.

### 1) What's a short circuit?

La vente de produits agricoles et alimentaires par le biais des circuits courts est un mode de commercialisation :

- en vente directe au consommateur,
- en vente indirecte à condition qu'il n'y ait qu'un seul intermédiaire.

### 2) Pros

- Better food
- Seasonal fruits and vegetables
- · Quality control

## • Better traceability

· Better

contact between

producer and consumer

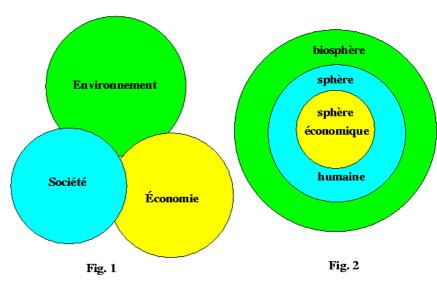

### • Respect of the environment

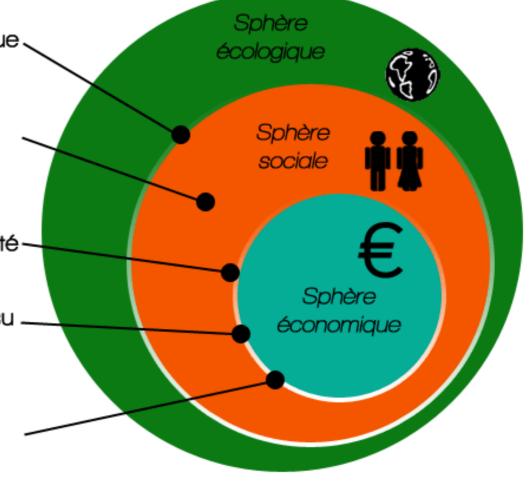

- Less pollution due to travel
- Waste reduction
- Improvement of local economy

- 1 Diminution de l'empreinte écologique.
- 2 Une meilleure alimentation
- 3 Un commerce équitable de proximité-
- 4 Préservation du tissu économique local
- 5 Anticipation de la rareté énergétique

#### 3) Cons

• More work for the producer (time, marketing skills and so on)

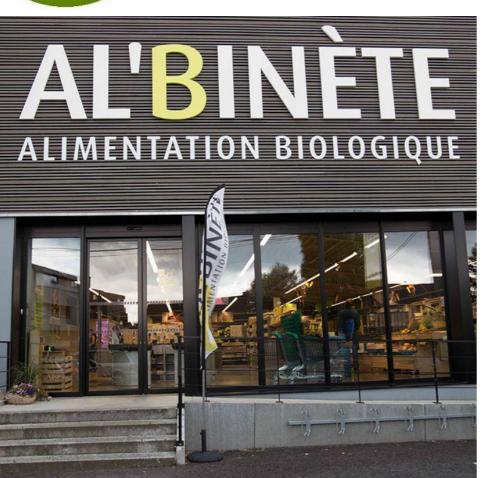

- Strict rules
- Less benefit for small producers because of high charges
- · No financial security

### And finally...

Some Belgian examples (from Liège)

# Thanks for listening!!;)
